Rejuvenation LASER MED SPA

PEPTIDES

Your Body, Optimized

Injectable peptides offer a fascinating new approach to enhancing your weight loss, hormone, or aesthetic treatments by working with your body's natural systems.

Fat Burner Blend

[AOD9604/Tesamorelin/MOTs-C]

- Promotes breakdown of fat (lipolysis)
- Inhibits fat storage (lipogenisis)
- Targets visceral, abdominal fat
- Regulates metabolic homeostasis
- Enhances physical performance and exercise endurance
- Anti-inflammatory and anti-aging properties

Fountain Of Youth

[Epithalon/GHK-Cu]

- Stimulates hair follicle growth
- Increases hair density & thickness
- Improves skin texture, firmness & elasticity
- Improves fine lines & wrinkles
- Anti-aging and antioxidant properties
- Improves immune response and enhances cognitive support

Think of them as tiny messengers that signal your cells to perform specific functions, such as boosting metabolism for more effective fat burning, optimizing hormone production for better energy and well-being, or stimulating collagen for smoother, more youthful-looking skin.

Because they are designed to mimic naturally occurring substances, they provide targeted benefits, helping you achieve your desired results more efficiently and with greater precision

NAD+

- Improves cardiovascular health
- Increases metabolism
- Enhances cognitive function
- Reduces pain and inflammation
- Boosts energy levels
- Accelerates recovery from exercise
- Slows down the aging process

Performance Blend

[CJC-1295/Ipamorelin]
